

Klove provides music that is never offensive to me or to my 2 children. I never have to change the channel or turn off the radio the way I need to with my television set. The music appeals to me, and my 2 kids. The information provided in the newscasts is timely, relevant and slanted differently than other stations. I can get a different point of view. This is so important to me and others in my community. The world and local news is from a Christian perspective. I have found that the Christian influence on this society is being pushed aside and made illegal. This is one place where my beliefs are not illegal, politically incorrect or socially unacceptable. Please do not take this forum from us. I travel and I can always listen to Klove. Thank you for your time.
